

My name is Marianne Sumrall, married to Dr. Aaron Sumrall and have three beautiful, smart and talented kids. My oldest Caleb is a freshman at Texas A & M CC pursuing a career in nursing. Gabe is my middle child and is a sophomore at Newton High School. He is very smart and has the biggest heart of anyone I know, and is wise beyond his years. Then there is Josie, my youngest, she is a 6th grader at Jasper Jr. High. Josie is my animal whisperer, there is no animal she can't tame, plus she is a very driven soul.

I teach Agscience at Jasper High School, plus I am also the current Jasper FFA Advisor. I have worked for Jasper for 5 years and in FFA for 16 years, I have really enjoyed meeting the great people of this community and the students I teach are great as well. I help guide our FFA officer team into leadership situations and work to build our program in the area of livestock with our new Ag Barn facility. We also have a great Ag Mechanics/Welding and Horticulture programs to ensure that our students have a variety of avenues to become successful citizens in our communities.
